BECOME A SPONSOR

Why Sponsor?

- Demonstrated support of the development of the SH&E profession.
- Exposure to a large community of SH&E professionals in our area.
- The opportunity to align your organization with a specific topic or safety event.

Interesting in partnering with us
to build a *safer* tomorrow?

RESCUE CHALLENGE 2024

OCT 16-17

ROCO TRAINING CENTER

BATON ROUGE, LOUISIANA

VISIT [ROCORESCUE.COM](https://rocorescue.com) FOR MORE INFO

ASSP chapter members are invited to be our special guests for Rescue Challenge '24 at the Roco Rescue Training Center near the Baton Rouge airport (Harding Blvd.). The \$50 registration fee will be waived although advanced registration is required.

Rescue Challenge features exciting confined space and high angle rescue scenarios in a realistic setting, and you will be allowed to watch. Call now to reserve your space!

Advanced reservations are required, and a box lunch will be provided. To register, please call 800-647-7626 or email info@RocoRescue.com.

We hope to see you there - it will be a fun experience!

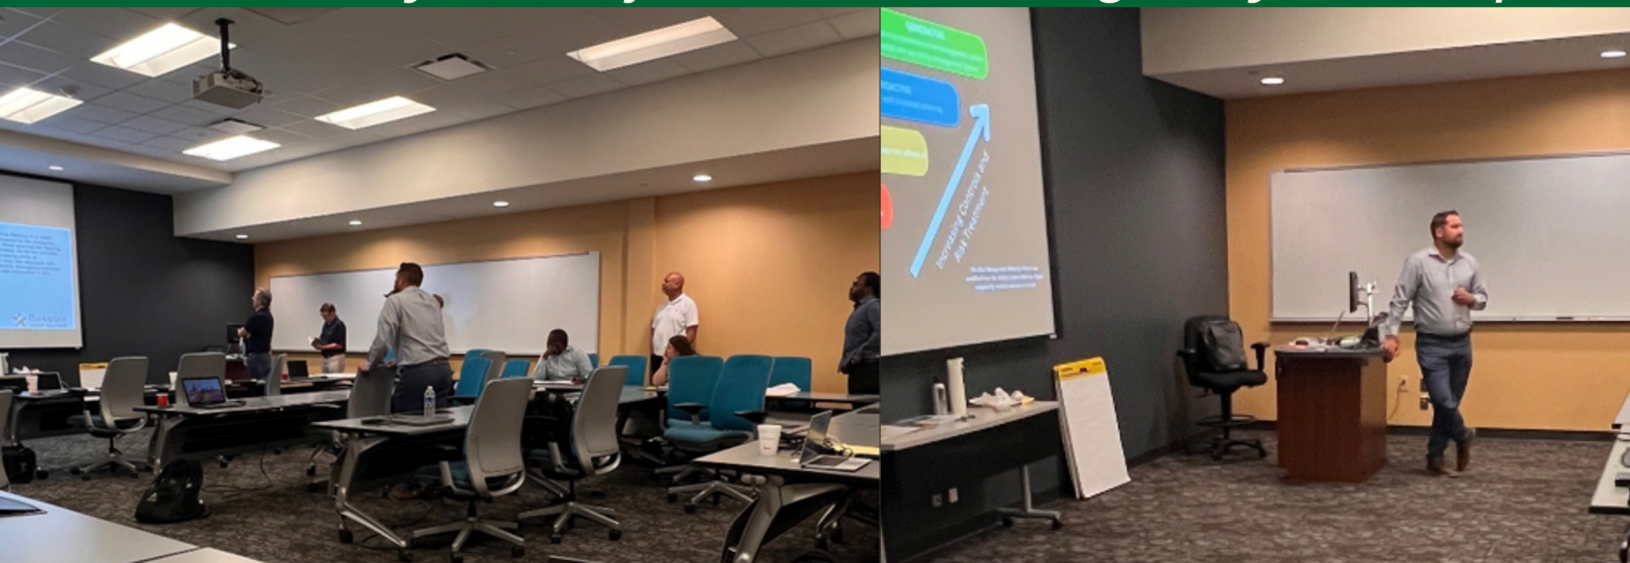

RiskCause Analysis Workshop - August 23, 2024

We had a successful and insightful **RiskCause Analysis Workshop** with members of the ASSP Greater Baton Rouge Chapter! The session focused on a critical shift in safety management—moving from "preventing recurrence" to "managing risk." By analyzing the root causes of incidents, we emphasized how understanding and managing potential risks can be far more effective than merely addressing past incidents.

One of the highlights was the debut of our innovative **Prevention Gauge** tool. This tool empowers teams to measure the likelihood of the effectiveness of their corrective actions by asking the right questions, assessing the probability and severity of risks, and ensuring solutions are SMART and align with the Hierarchy of Risk Treatment. As one attendee noted, "the concept of rating corrective actions for effectiveness will directly affect how I craft correction actions."

Attendees enjoyed the new insights and perspectives, with one saying it provided "both a good overview of incident investigations and an introduction of higher-level, newer concepts." Attendees left the workshop with practical strategies for integrating risk management into their safety protocols, leading to safer workplaces and more proactive safety cultures.

Thanks to everyone who joined us in advancing safety leadership!

Safety Professionals, We Need Your Insights!

We're conducting a survey to better understand professional development and leadership growth in the safety field. Whether you have a written professional development plan, are considering creating one, or haven't thought about it yet, your feedback is invaluable! 

 Take a few minutes to complete our survey and share your experiences and thoughts on career development. Your input will help shape the future of our industry! 

Thank you for contributing to the growth and advancement of safety professionals everywhere.

Community Outreach

With October being *Careers in Construction* month, we are participating in 2 events to promote careers in safety.

Tuesday, October 8th, ASSP-GBR is going to have a booth at the Albany High School Career fair located in Albany, La.

Career Fair

Albany High School

The Albany School Career Fair is a great opportunity for students to explore various careers and help students get excited to learn about different occupations!

Albany High students are a diverse group of students with close to 50% being on the technical track. This will give students the opportunity to personally communicate with representatives of different professions.

For more information contact:
john.leitz@lpsb.org

Benefits of Career Fair:

- ▶ Gives students broader exposure to the working world
- ▶ Helps students envision how they might contribute to the world
- ▶ Enables students to set goals for themselves
- ▶ Helps students plan their high school choices to gain required skills

The Career Fair is scheduled for Tuesday October 8th at 8am in AHS cafeteria

To register for the Career Fair go to:

Community Outreach

Last year, we reached over 1500 high school students with interest in a career in construction!

Thursday, October 17th, ASSP-GBR will have a booth at Lamar Dixon Expo Center at the Build Your Future event hosted by ABC Pelican. We participated in this event last year.

Both of these events are great opportunities to promote the safety profession. It could also open doors for further community outreach opportunities with high school in our areas.

If you are interested in volunteering at either of these events, please reach out to our Community Outreach Chair, Sarah Broussard at sbroussard@e3enviro.com or our chapter Secretary, Laremy Stilley at lstilley@pssllc.us.com.
